

CONTENT

FISHERY AND AQUACULTURE

Knyazev I.V.

About modeling fish growth rates at various temperatures and physiological temperature optimum..... 4

Semenchenko S.M., Smeshlivaya N.V.

Causes of summer local suffocations in the Irtysh meander lakes 14

Tunev V.E., Grigoriev S.S.

Characteristics of broad whitefish (*Coregonus nasus*) growth in the Taz river basin 25

BIOLOGICAL RESOURCES

Interesova E.A., Rostovtsev A.A., Egorov E.V., Zaitsev V.F., Vizer A.M.

Fishing value of non-native fish species in the southern water bodies of Western Siberia 36

ECOLOGY

Bazov A.V., Bazova N.V.

Assessment of the impact of construction of multiple hydropower plants in Mongolia on fish fauna of Selenga River downstream and Lake Baikal 45

Shashulovskaya E.A., Mosiyash S.A.

Dynamics of compounds of some heavy metals in the presence of *Dreissena bugensis* in laboratory modeling conditions..... 59

Prusevich L.S., Egorov E.V.

Assessment of the ecological state of the Meret river (Kemerovo region) by hydro-biological parameters in human impact conditions 66

Chelnokova O.A., Tretyakov N.Yu.

Optimizing procedures for preparation of samples used to determine low concentrations of benzapyrene in natural waters..... 76

PARASITOLOGY

Kazachenko V.N., Kalinina G.G.

Registration of *Lernaeolophus sultanus* Nordmann, 1864 Copepoda (Copepoda: Siphonostomatoida: Pennellidae) on a new host and in a new region 83

BRIEF SUMMARIES

Kalinina G.G.

Metals in the tissues of the clam *Corbicula japonica* from the Razdolnaya river (Amur Bay, Sea of Japan)..... 93

Rules for authors of Bulletin of Fisheries Science 98
